Rishabh Kumar Yadav

Entry-Level Front-End Developer | HTML, CSS, JavaScript | React Learner

📞 8077149280 @ codevibewithrishi@gmail.com 🔗 https://www.linkedin.com/in/codeharbourdev/ 📍 Etawaha , Uttarpradesh

SUMMARY

Self-taught and passionate Front-End Developer skilled in HTML, CSS, JavaScript, and Git.
Strong attention to detail, problem-solving mindset, and effective time management.
Currently learning React.js to build dynamic and scalable web applications.
Eager to contribute to modern, responsive web projects in real-world teams.

EDUCATION

BSC in mathematics

Chhatrapati Shahu Ji Maharaj University

📅 2020 - 2023   📍 Etawaha, Uttarpradesh

GPA **6.0** / 10

- Started learning during SSC GD prep, now building real-world projects and learning React.js.

EXPERIENCE

Calculator App

Role: Frontend Developer (Self Project)

📅 2025 - Present   📍 Remote

Tech Stack: HTML, CSS, JavaScript

- Developed a fully functional calculator performing basic arithmetic operations
- Implemented button click events, real-time output display, and clear/reset logic.

Weather App

Role: Frontend Developer (Self Project)

📅 2025 - Present   📍 Remotely

Tech Stack: HTML, CSS, JavaScript, OpenWeatherMap API.

- Developed a responsive weather app using OpenWeatherMap API to fetch and display real-time weather data. Improved user experience with search feature and intuitive UI.
- Designed search functionality and user-friendly weather card UI.

STRENGTHS

💎 **Your Strength**

Self-motivated and disciplined with a strong focus on daily improvement.

TECHNICAL SKILLS

HTML5 CSS3 Tailwind CSS

UI-based Problem Solving

JavaScript (ES6+) DOM Manipulation

UI/UX Understanding

Responsive Web Design

Git GitHub API Integration

React.js (Learning Phase)

OTHER NOTABLE PROJECTS

Other Notable Projects

📅 2025 - Present   📍 Remote

Tech Stack: HTML, CSS, JavaScript

- **Zomato Clone** – A responsive UI replica of Zomato homepage using HTML, CSS, and Tailwind CSS.
- **Amazon Clone** – Multi-section layout mimicking Amazon's front page (HTML/CSS only).
- **Product Page with Cart** – Functional cart system with dynamic item addition/removal (JavaScript).
- **BMI Calculator** – Calculates and categorizes BMI based on input (JS project).
- **Random Password Generator** – Secure password creation with character customization.
- **Image Slider** – Auto & manual image carousel using DOM manipulation.
- **Follow & Unfollow Page** – UI simulation of social media profile interactions.
